- Clear communication of tasks and expectations in the line with the company culture and goals
- Ensure high-quality standards and motivation for your team´s output and achievement
- Collaborate with cross-functional teams to define, design and implement new features
- Identify and fix bottlenecks, and deal with other challenges, in order to ensure successfull execution

You are responsible for

- testing across multiple platforms
- overall planning of test-related tasks
- development, implementation and review of testing strategies
- ensuring of appropriate application testing, user acceptance and testing support
- implementation of test process definition, test demand management and automated testing
- monitoring of development, publication and execution of documented QA test plans
- creating of test scripts in collaboration with the development and design teams

- creating and maintaining of quality standards, improvement of QA productivity and reduction of bugs
- establishing and maintaining departmental policies, procedures and goals
- representation of QA in all planning, leadership and release meetings
- support of technology process development, planning and execution, positive and helpful reviews
- interaction with other teams
- You monitor and participate in workflow tracking (Jira) and documentation (Confluence) so that these scalable industrialized processes enable our client's business growth.

Your Profile

- Bachelor or Master degree in computer science or equivalent work experience
- At least 5 years of test management or testing experience
- Experience in leadership and ensuring high team performance
- Proven mobile testing experience either with iOS or Android applications
- Demonstrable resource management and vendor management expertise
- Experience in implementing testing within an organisation
- Sound understanding of formal testing methods and practices
- The ability to lead and manage multiple testing projects and to work well in time-sensitive situations and balance quality needs
- Excellent project management and leadership skills
- Experience in working in teams which are running successfully with agile processes
- Excellent communication and organisational skills
- Passion for technology and willing to develop expertise in new emerging fields
- Quick to learn and fast to adapt to changing environments.
- Solving new problems with a „can-do“ mentality
- Fluent in English and German skills are required

THE GREAT HIGHLIGHTS

- A very successful company with a great culture in Zurich and an exciting job in an international team
- Very modern and comfortable offices and the best equipment (optional bring your own device policy)
- Free breakfast, lunch, snacks, ice cream, sweets and drinks every day, pool and kicker tables, cinema, Friday evening beers and quarterly team dinners
- And last but not least an outstanding income
- Also Switzerland has low tax for your income and one of the best health and pension insurance systems worldwide
