

## iOS Engineer

Location: Zurich, Switzerland

Job ID: 2014024

An excellent Job Opportunity in an exciting and fast growing company with an outstanding income available in Zurich, Switzerland.

We are looking for iOS Engineers in Zurich, Switzerland. This is an excellent job opportunity for experienced and highly motivated people, who are fascinated by technology and like to work hard in a rapidly changing and very exciting environment.

Our client is a peerless and high-performance company. You can be sure, that they explore the latest technologies. The team of experts spans all of key technologies and business areas which are necessary for building new fantastic internet companies.

If you want to work in a technology team, in close cooperation with varied teams of engineers, designers, investment analysts and many other experts to push projects forward, please contact us.

### Your Tasks

- You translate business requirements into innovative application architectures and work closely with our client's business, design and project teams to develop and ship new features and products with members of other teams to create scalable applications
- You interact with other teams and participate in the process with positive and helpful reviews and help to maintain the organisation and the high quality standard
- You design, build, test, monitor, maintain and improve high-performance, reusable and reliable code and participate in regular code and peer reviews to ensure quality requirements are met and maintained.
- You identify and correct bugs and bottlenecks
- You monitor and participate in workflow tracking (Jira) and documentation (Confluence) so that these scalable industrialized processes enable our client's business growth
- You are motivated to remain up-to-date with the latest technologies and understand the benefits and limitations which you will provide to your team to further the development of your product

### Your Profile

- Bachelor or Master degree in computer science or equivalent work experience
- Proven track record of building iOS apps and deep understanding of Objective-C and Cocoa design patterns. Knowledge of other languages and platforms is a plus

- Experience in working in teams which are running successful with agile processes and a special liking to writing clean and elegant test-driven codes
- Understanding of how you get the best performance out of iOS apps through analysis and tuning
- Good overview and knowledge of the general mobile landscape, architectures, trends and coming technologies, being active in the development community is a plus
- Knowledge of frameworks as CoreData and AFNetworking and tools as CocoaPods, also experience with Git and continuous integration. Knowledge of low-level C-based libraries is a plus
- Good understanding what users want for a great user experience and knowledge of using best practices
- Excellent communication and organisational skills.
- Passion for technology and willing to develop expertises in new emerging fields
- Quick to learn and fast to adapt to changing environments.
- Solving new problems with a „can-do“ mentality
- Fluent in English and German skills are required

#### THE GREAT HIGHLIGHTS

- A very successful company with a great culture in Zurich and an exciting job in an international team
- Very modern and comfortable offices and the best equipment (optional bring your own device policy)
- Free breakfast, lunch, snacks, ice cream, sweets and drinks every day, pool and kicker tables, cinema, Friday evening beers and quarterly team dinners
- And last but not least an outstanding income
- Also Switzerland has low tax for your income and one of the best health and pension insurance systems worldwide
